number cards 1–100

Audience / Público
friends, 2–4

What the twist changed / *Qué cambió el giro*

Easier for a 10-year-old: only levels 1–4, lives = players + 1, and one hint may be spoken per level.

Goal: how do you win? / *Objetivo: ¿cómo se gana?*

Together, play all your cards onto one pile in rising order, without talking. Win by clearing the last level.

Setup / *Preparación*

Shuffle the cards 1–100. Lives = number of players. Level 1: each player gets 1 card, level 2: 2 cards, and so on.

How to play / *Cómo se juega*

No talking, no signs, no turns. When the time feels right, put your LOWEST card face up on the pile. If someone plays a card while another player holds a lower one, the team loses 1 life and the lower cards are thrown away.

When all hands are empty, the level is won: deal one more card each.

The game ends when... / *El juego termina cuando...*

level 12 / 10 / 8 is won (2 / 3 / 4 players) or all lives are lost.
